

Liberty Group

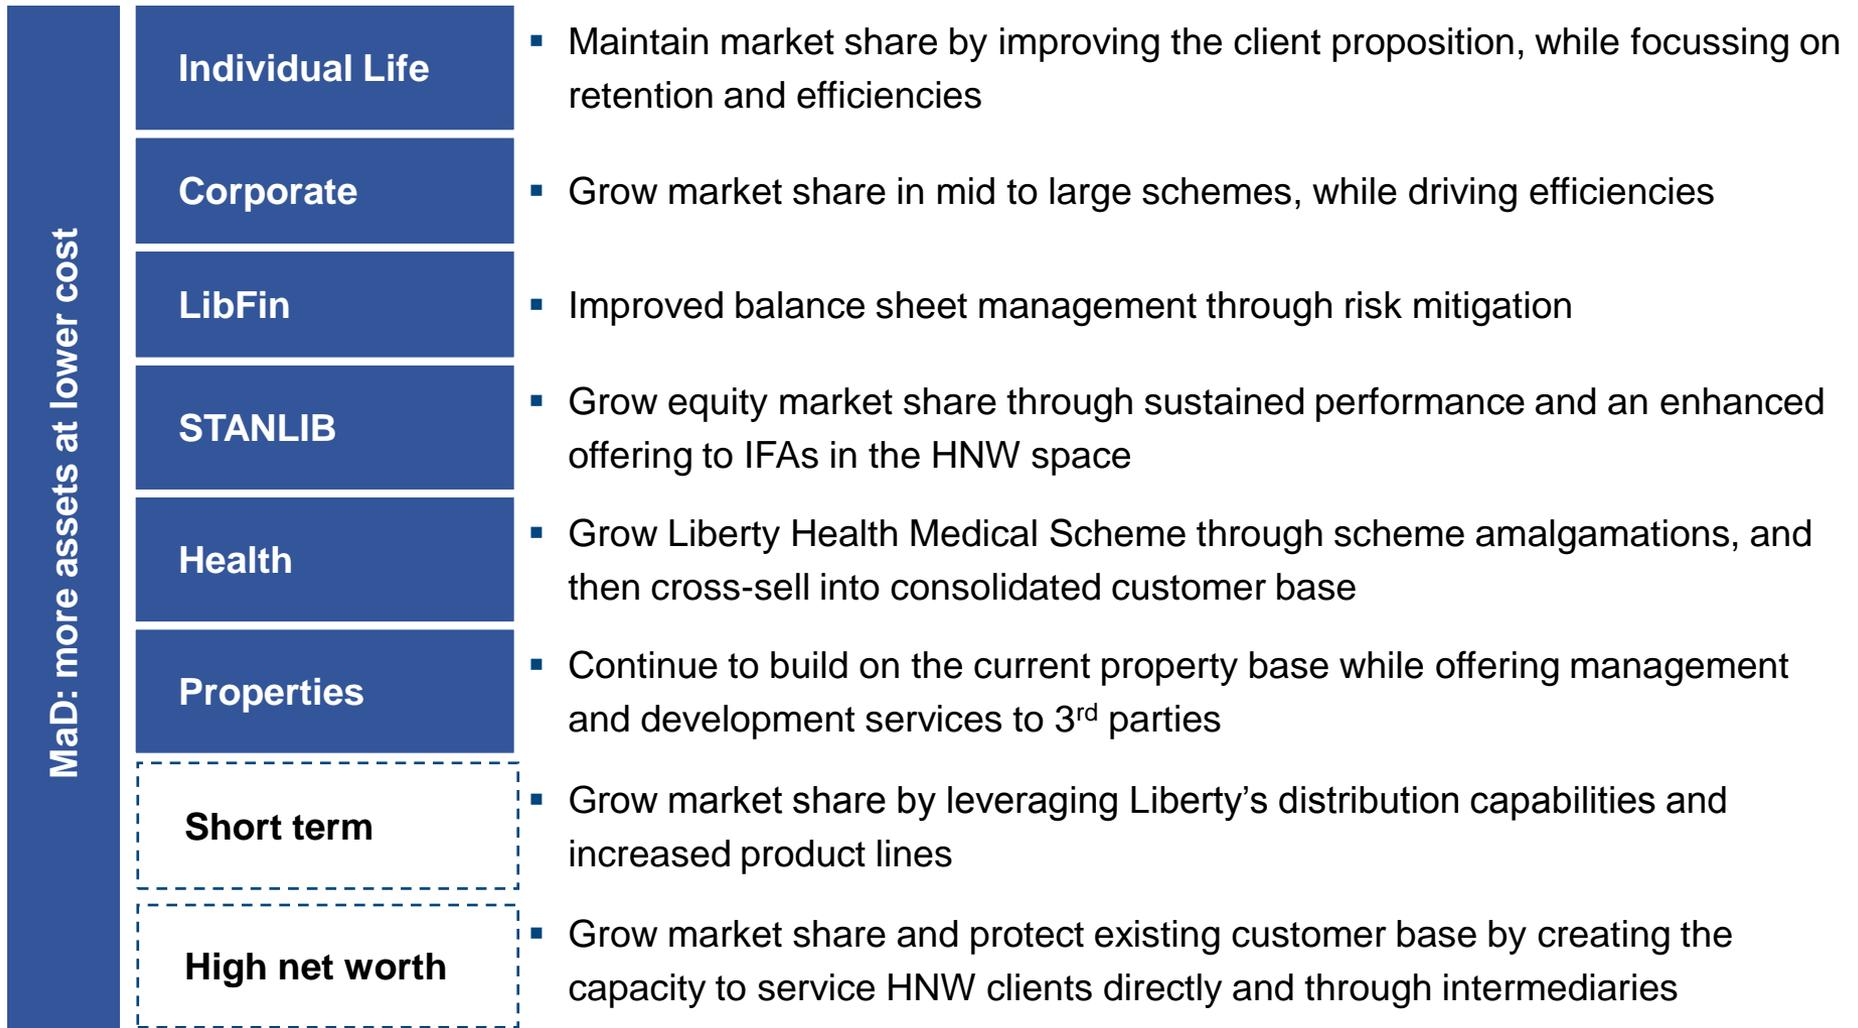

Bruce Hemphill

Conclusion

The way forward

How we plan to increase profit in South Africa

How we plan to increase profit in Africa

- Secure leading position in East Africa through CfC and UAP transactions
- Enter Nigeria off the back of Health and general insurance...seek alternative opportunities that allow entry with scale
- Consolidate Namibia and Botswana in Southern region and leverage Standard Bank relationship

Liberty is still playing catch-up

Life (on balance sheet)	✓	✓
Asset management (off balance sheet)	✘	✓
LISP (open architecture platforms)	✘	✓
Short term insurance	✘	✘
Healthcare	✘	✘
HNW*	✘	✘
Geographic Diversification	✘	✘

* Includes bespoke asset management, broking, private equity, trusts and estates, private banking

✓ Significant presence
✘ Minor presence

✘ Very small or no presence

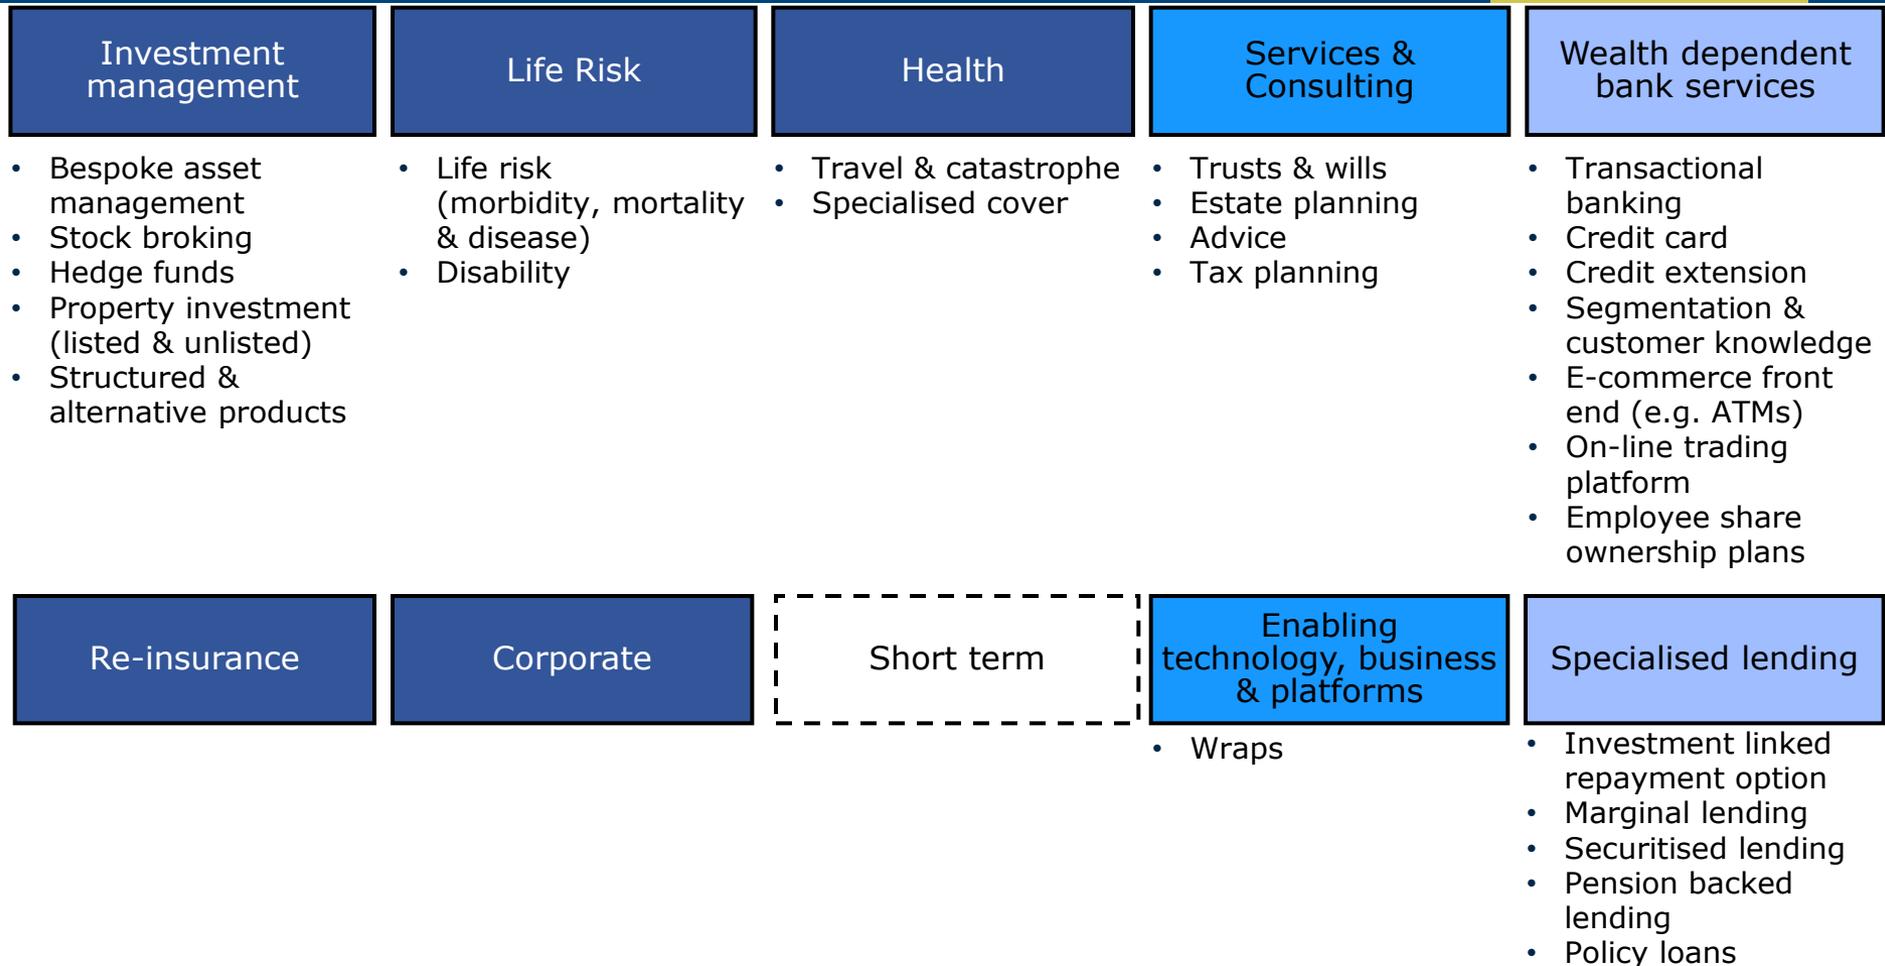

While we have broadened our wealth offering over the past year, several gaps remain

Short-term insurance supports the Liberty vision – why?

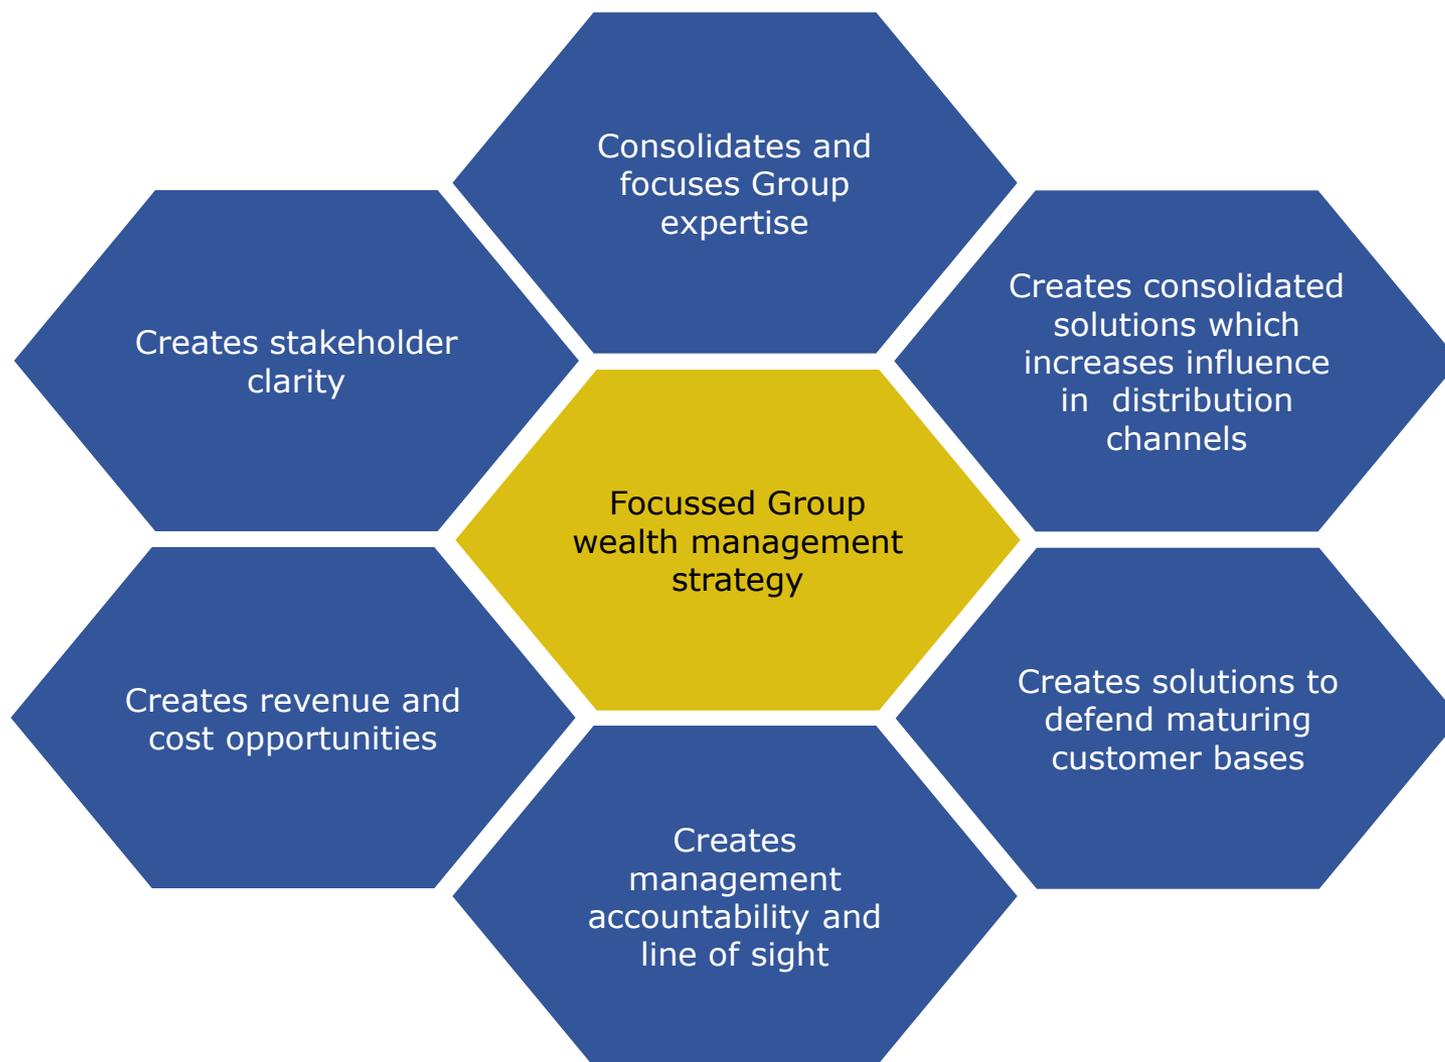

The HNW segment requires a bundled set of products and solutions

Without a cohesive offering, Liberty will not be able to service top-end clients.

A focused wealth management strategy has obvious advantages for the broader Group

The way forward

- Complete the Liberty Group restructuring under a non-regulated holding company
- Continue to diversify away from an over-reliance on SA life assurance
- Focus on strengthening our existing businesses in order to:
 - Entrench position in current markets
 - Fund expansion into new markets
- Review short term and HNW initiations with Standard Bank
- Re-negotiate Bancassurance initiatives
- Expand into new markets

The creation of a distinctive and compelling Pan-African and emerging markets wealth business
